

Save Our Geese

Canada geese are beautiful, intelligent birds who mate for life, fiercely protect their eggs and young, and display loyalty for other members of their flock.

NOTE: Lake if the Pines (LOP) has not complied with non-lethal requirements stipulated in the federal depredation permit! Any removal of the geese will be in violation of the permit.

Friends and Neighbors,

They're at it again. **LOP is planning another slaughter of OUR geese TOMORROW.**

Save Our Geese (SOG) received this important communication that we want to share with everyone.

As you may or may not be aware, a "**Swimming Advisory**" sign was

SENSELESS DESTRUCTION!!! LOP 2020 - A total of 130

posted at all the parks on Friday *beautiful Canada Geese were killed.*
(July 21, 2023). This advisory was announced on Thursday in an **email notice** to LOP members. The notice also said, "Water samples will be collected and analyzed again on Monday July 24, this advisory will be updated as soon as results are back to the Association.??????" (sic)

Today SOG received a copy of an **email** from Nevada Environmental Health in response to an inquiry about this "advisory".

We'll leave it up to the reader to interpret the correspondence but take the opportunity to point out two very important statements from the County: 1. "levels of E. coli being well below the threshold of concern" and 2. "Mr. Botheilo wanted to post the notice". Environmental Health had **NOTHING** to do with posting an advisory or even suggesting an advisory should be posted as LOP Administration has led everyone to believe.

Oh my..... this looks like a case of one or more individuals in leadership exerting power over the masses, gas lighting the goose situation and creating FEAR.

Where can we find the permission slips?

Speechless in LOP.

7AM tomorrow. We'll see you on the Lake. Let's all get on the shoreline and flush the birds off the water!!

SaveOurGeese - Our Position

We Oppose

SaveOurGeese Coalition opposes the killing of live geese and discharging firearms within the LOP community.

We Support

We are supportive of reducing the number of geese through a combination of nest depredation, **egg addling (done humanely)**, hazing, **contraceptives**, predator scarecrows, light/water motion detectors, fencing, etc.

SOG is Willing to Help

We are willing to help form a committee of DEDICATED volunteers accountable to the members, who commit to ACTIVELY employing non-lethal means to reduce the geese population and waste.

Canada geese are beautiful, intelligent birds who mate for life, fiercely protect their eggs and young, and display loyalty for other member of their flock.

Never doubt that a small group of thoughtful, committed citizens can change the world; indeed, it's the only thing that ever has. – Margaret Mead.
